## **Federal Energy Regulatory Commission**

[Docket No. CP95-251-000]

### **Pacific Interstate Transmission Company; Notice of Application**

March 27, 1995.

Take notice that on March 8, 1995, Pacific Interstate Transmission Company (PITCO), 633 West Fifth Street, Suite 5400, Los Angeles, California, 90071-2071, filed in Docket No. CP95-251-000, an application pursuant to Section 7(c) of the Natural Gas Act for authorization to establish an additional delivery point at Blanco, New Mexico for the sale of gas to PITCO's sole customer, Southern California Gas Company (SoCalGas), all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Specifically, PITCO intends to establish an additional sale and delivery point at Blanco, New Mexico for the sale of Canadian gas to SoCalGas. PITCO states that the additional sale and delivery point is necessary because of El Paso Natural Gas Company's (El Paso) increasing inability to receive all of PITCO's natural gas supplies on a firm basis at the existing El Paso receipt point from Northwest Pipeline Corporation (Northwest) at Ignacio, Colorado. PITCO says the additional sale and delivery point will provide SoCalGas with greater flexibility concerning its purchases, and will eliminate unnecessary alternative transportation costs and construction of unnecessary pipeline additions.

PITCO states that the addition of new sale and delivery points is specifically provided by the General Terms and Conditions of PITCO's FERC Gas Tariff.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 17, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be

taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for PITCO to appear or be represented at the hearing.

### **Calpine Power Marketing, Inc.; Notice of Issuance of Order**

March 28, 1995.

On August 9, 1994 and February 8, 1995, Calpine Power Marketing, Inc. (CPMI) submitted for filing a rate schedule under which CPMI will engage in wholesale electric power and energy transactions as a marketer. CPMI also requested waiver of various Commission regulations. In particular, CPMI requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by CPMI.

On March 9, 1995, pursuant to delegated authority, the Director, Division of Applications, Office of Electric Power Regulation, granted requests for blanket approval under Part 34, subject to the following:

Within thirty days of the date of the order, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by CPMI should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214).

Absent a request for hearing within this period, CPMI is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of the applicant, and compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of CPMI's issuances of securities or assumptions of liability.

Notice is hereby given that the deadline for filing motions to intervene or protests, as set forth above, is April 10, 1995.

Copies of the full text of the order are available from the Commission's Public Reference Branch, Room 3308, 941 North Capitol Street, N.E. Washington, D.C. 20426.
